Papanicolaou Society of Cytopathology
USCAP Companion Meeting Agenda
Boston, MA

March 21, 2015

“Small Biopsy Specimens of Head and Neck with Emphasis on Cell Cytology and the Role of Special Stains”
Papanicolaou Society of Cytopathology

Awards Presentation
PSC Awards Committee

Lester J. Layfield, M.D. (Chair)
Oscar Lin, MD
Maureen F. Zakowski, M.D.
Philippe Vielh, M.D., Ph.D.
Fernando Schmitt, MD
Andrea Abati, M.D.
Dan Kurtycz, M.D.
PSC Lifetime Achievement Award
Britt-Marie, Ljung, MD
PSC Lifetime Achievement Award
Britt-Marie, Ljung, MD
PSC Lifetime Achievement Award
Britt-Marie, Ljung, MD
PSC Lifetime Achievement Award
Britt-Marie, Ljung, MD
L.C. Tao
Educator of the Year Award
Celeste Noëlle Powers, M.D.,Ph.D.
Yolanda Oertel

Interventional Cytopathologist of the Year Award

David B. Kaminsky, M.D., FIAC
Papanicolaou Society of Cytopathology

Research Awards
PSC Research Awards Committee

Claire W. Michael, M.D. (Chair)
Edmund Cibas, M.D
Phillip Bomeisl, D.O
Jennifer Brainard, M.D
Vinod Shidham, M.D., Ph D
Philippe Veilh, M.D., PhD
Qing Kay Li, M.D.m Ph.D
Paolo Gattoso, M.D
Jay Wasman, MD
First Place - Research Award

[336] Methylation Markers of Pancreatic Carcinoma and Their Usefulness in Pancreatic FNA Cytology

Georgios Deftereos, Qinghua Feng, Melissa P Upton, Joshua Stern, Stephen E Hawes, Nancy B Kiviat.

University of Washington, Seattle, WA
Second Place - Research Award

[430] The Diagnostic Implications of GNAS Point Mutation in Pancreaticobiliary Neoplasia in FNA and Brush Cytology Specimens

Christopher Vytlacil, Jan F Silverman, Sydney D Finkelstein.

Allegheny General Hospital, Pittsburgh, PA; RedPath Integrated Pathology, Pittsburgh, PA
“Small Biopsy Specimens of Head and Neck with Emphasis on Cell Cytology and the Role of Special Stains”
“Salivary Gland FNA: New Markers and New Opportunities for Improved Diagnosis”

Associate Professor of Pathology, Director of Head & Neck Pathology MGH and Chief of Otolaryngologic Pathology Massachusetts Eye and Ear Infirmary

- Professional interests: Head and Neck Pathology, Salivary Gland Cytopathology, and Thyroid Cytopathology.
- Chair: CAP Evidence-Based Guidelines Committee developing national guidelines for the testing of head and neck squamous cell carcinomas for HPV.
- Hobbies: Bonsai artist, duplicate bridge, sci-fi movies

William Faquin, MD., PhD
“Lumps and Bumps of the Oral Cavity and Oropharynx”

Associate Professor of Pathology and Otolaryngology. University of Pittsburgh Medical Center

- Professional interests: Head and Neck Pathology, particularly salivary gland, bone and soft tissue, parathyroid glands
- Biomarkers validation in head and neck cancer and tissue banking
- Hobbies: Exercise, anime and manga, video games

Raja R. Seethala, MD
"Sinonasal Region Biopsies: Cytology of Tumors"

Consultant Pathologist Southern California Permanente Medical Group

• Professional interests: Head and Neck Pathology, with particular interest in sinonasal tract, ear and temporal bone, and thyroid gland carcinomas

• Hobbies: Traveling, weight lifting, fine art collecting, swimming, racquetball, SCUBA, photography, volunteer work, stained glass, museum browsing, cooking, cake decorating, financial analysis including financial lectures

Lester D.R. Thompson MD.,PhD.
“Challenging Squamoid Biopsies”

Margaret S. Brandwein-Gensler, MD

Professor of Pathology and Surgery. Section Head: Surgical Pathology. Director Head and Neck/ Surgical Pathology Fellowship. University of Alabama Birmingham Vice Chair University of Buffalo April 2015

- Professional interests: Head and Neck Pathology
- Hobbies: Grandmother and artist
Zarkanator the Moderator

- Hobbies: Listening to great lectures at USCAP PSC Companion Meetings
